

Can you tell me if your adapter will fit on my Viking Diamond Deluxe or Ruby Deluxe embroidery machines?
Thank you for your time and assistance.

Pat

Dear Pat:

I'm happy to report that The Thread Director will work on both the Viking Diamond Deluxe and the Ruby Deluxe embroidery machines. Below are photos of The Thread Director mounted on the Diamond. It will mount onto your Ruby the exact same way.

Flip Up your vertical spool pin

Mount the Thread Director on the pin per package instructions and thread your machine the way you normally would. Don't forget to lower the tension on your machine and use a topstitch needle, 90/14 for metallic or 100/16 for Ultra Twist (the thread that looks like it is frosted).
